

Saturating exponential — Unweighted; covariance scaled by RSS/(n - 2)
a = 238.94213; approximate standard error = 2.707
b = 0.00055015643; approximate standard error = 7.2669e-06
RSS = 0.124551; degrees of freedom = 12
Residual = observed y - fitted y. x treated as exact.
Stored fit; no refitting. No coverage or prediction intervals.
