
Straight line | Absolute independent y standard uncertainties
intercept = 1.1767826; approximate standard error = 0.087795
slope = 0.8915861; approximate standard error = 0.044691
Chi-square = 4.96815; degrees of freedom = 3
Residual = observed y - fitted y. x treated as exact.
Stored fit; no refitting. No coverage or prediction intervals.
